COMPETITIONS

Sports hall Bovec: Architectural Competition

2019

- Awarded "First prize": Designing sports hall in Bovec, Slovenia
- Main assignment: 3D modelling

Urban Meal Mine: Architectural Competition - team leader

2018

- Awarded "Honorable mention":

Designing sustainable food production and consumption zone for mega - cities

Solar Decathlon Middle East 2018 Competition

2016 - 2017

International student multidisciplinary competition - raising awareness of bioclimatic approach to architecture design

- Main assignments: Interior design and representation

ADDITIONAL EDUCATION

WORKSHOPS AND COURSES

Parametric Design with Grasshopper

06/2016

Organized by STRAND in collaboration with Co-de-iT

- Basic Grasshopper workshop with focus on its use in data manipulation and geometry information in order to define the process from design to production.

Rhino.Python | Recursive Subdivision Processing

2015

University Union Nikola Tesla, Belgrade, Serbia

- Introducing programming techniques to architectural design.

Autodesk 3ds Max, Belgrade, Serbia | Level basic

2013

Creative workshop "UrBINizacija"

2012

- Motivating nature conservation by painting on recycle bins.

ADDITIONAL ACTIVITIES

Scenography design

2016, 2017

- Designed the stage for the annual University costume party

Volunteering - FABelgrade convention and workshops

2016

- Promoting digital fabrication concept and its application in various fields

Student exhibition - Milan Zloković Architecture

2016

- Work presented under curatorial concept of Dr Ljiljana Blagojević, Assoc. Prof.

THANK YOU !
